Siklus Ikan Salmon

The Salmon's Circle

Siklus hidup seekor ikan salmon terdiri dari beberapa fase yang menakjubkan dan penuh dengan filosofi perjuangan. Siklus tersebut sejalan dengan semangat yang diemban oleh LPDP. Seekor ikan salmon lahir dan tumbuh di air tawar. Ketika cukup umur, seekor ikan salmon akan bermigrasi ke air laut. Ikan salmon akan kembali dan melawan arus menuju air tawar untuk berkembang biak.

Hal tersebut menganalogikan bagaimana LPDP membantu putra-putri terbaik bangsa untuk menempuh pendidikan di berbagai penjuru dunia dan memberikan tempat kembali di Indonesia untuk mengabdikan diri. Selain itu, kegigihan ikan salmon melawan arus merepresentasikan tekad LPDP untuk terus membantu dan mengayomi setiap penerima beasiswa agar tetap bisa meraih mimpi dalam berbagai tantangan, termasuk pada masa pandemi.

The life cycle of a salmon fish consists of several phases that are amazing and full of philosophies of resilience. The cycle is in line with the spirit carried by the LPDP. A salmon fish is born and grows in freshwater. When old enough, a salmon will migrate to the ocean. Then, it will migrate back and swim against the current, back into the freshwater to breed.

This is in line with how LPDP helps the nation's best sons and daughters to study in many places of the world and provides a place back in Indonesia to devote themselves. In addition, the persistence of salmon against the current represents LPDP's determination to continue to help and protect each scholarship recipient so that they can continue to achieve despite the various challenges, including during the COVID-19 pandemic.

Pengabdian melalui Pendidikan

Devotion through Education

Fase hidup seekor ikan salmon bermula saat terlahir di air tawar sebelum berpetualang jauh ke lautan dan kembali ke air tawar untuk bibit unggul. Hal ini mengibaratkan putra-putri bangsa yang menempuh pendidikan ke penjuru dunia dan kembali ke tanah air untuk mengabdikan diri.

The life phase of a salmon fish begins when it is born in fresh water before venturing deep into the ocean and returning to the freshwater to give birth to superior seeds. This is like the nation's sons and daughters who are educated globally and return to their homeland to devote themselves.

Definisi organisasi ini diatur pada pasal 1 angka 4 Peraturan Presiden Nomor 12 tahun 2019 tentang Dana Abadi Pendidikan.

Indonesia Endowment Fund for Education Agency is a non-echelon work unit at the Ministry of Finance that implements the Financial Management Pattern of the Public Service Agency (BLU) and manages the Education Endowment Fund (DAP) in accordance with the provisions of the legislation. (Acting Official)
President Director

Assalamualaikum Warrahmatullahi
Wabarokatuh

Salam sejahtera untuk kita semua
Nammo Buddaya Salam Kebajikan.

Dengan segenap berkah dan rahmat dari Tuhan Yang Maha Esa, dengan bangga kami hadirkan kembali Laporan Tahunan Lembaga Pengelola Dana Pendidikan Tahun 2020 ini kepada seluruh pemangku kepentingan, serta kepada seluruh rakyat Indonesia sebagai *ultimate stakeholder* pengguna layanan yang diberikan instansi sektor publik di Indonesia.

Laporan Tahunan Lembaga Pengelola Dana Pendidikan Tahun 2020 ini mengangkat tema Resiliensi Layanan Beasiswa dan Pendanaan Riset di Tengah Pandemi COVID-19.

Kinerja yang tinggi merupakan produk dari organisasi yang kuat, dan organisasi publik yang kuat tidak lain adalah produk dari regulasi yang kuat. Pada tahun 2020, penguatan organisasi LPDP dicapai dengan ditetapkannya Peraturan Presiden Nomor 12 tahun 2019 tentang Dana Abadi Pendidikan. Peraturan ini secara umum mengatur mengenai struktur baru Dewan Penyantun serta Dewan Pengawas, definisi serta komposisi dari Dana Abadi Pendidikan, serta tata kelola Dana Abadi Pendidikan tersebut. Peraturan Presiden tersebut secara tegas memperkuat posisi LPDP sebagai pengelola dana abadi di Indonesia, yang sekaligus dapat meningkatkan kualitas layanan LPDP kedepannya.

Peace be upon you, and Allah's mercy and blessings

Greetings of prosperity to all of us Nammo Buddhaya, Greetings of Benevolence.

With all the blessings and graces from God Almighty, we are proud to present this 2020 Annual Report of the Indonesia Endowment Fund for Education Agency to all stakeholders, as well as to all Indonesian people as the ultimate stakeholder and recipient of services provided by public sector agencies in Indonesia.

This 2020 Annual Report of the Indonesia Endowment Fund for Education Agency is themed The Resilience of Scholarship Service and Research Funding in the Midst of the COVID-19 Pandemic

High performance is the product of a strong organization, and a strong public organization is nothing but the product of strong regulation. In 2020, the strengthening of the LPDP organization was achieved with the stipulation of Presidential Regulation No. 12 of 2019 concerning the Education Endowment Fund. This regulation generally manages the new structure of the Board of Trustees and the Supervisory Board, the definition and composition of the Education Endowment Fund, and the management of the Education Endowment Fund. The Presidential Regulation explicitly strengthens LPDP's position as the manager of endowments in Indonesia, which at the same time can improve the quality of LPDP's services in the future.

Selain dari sisi penguatan regulasi, LPDP juga melakukan penguatan dari sisi teknis operasional. LPDP berkomitmen untuk beradaptasi secara berkelanjutan terhadap disrupsi teknologi dan persepsi masyarakat pengguna layanan yang mayoritas adalah kalangan milenial, dengan melakukan modernisasi atas kantor layanan. LPDP telah melakukan perpindahan kantor pada bulan Maret 2019, dari kantor di Gedung Ali Wardhana ke Gedung Danadyaksa di bilangan Cikini, Jakarta Pusat. Kantor baru LPDP didesain sesuai konsep *open office*, yang mendukung penuh proses kolaborasi dan sinergitas, serta memberikan kesan positif bahwa organisasi LPDP adalah organisasi yang terbuka, transparan, dan amanah dalam menjalankan pengelolaan Dana Abadi Pendidikan.

Dengan penguatan regulasi dan modernisasi kantor, kinerja layanan juga mengalami peningkatan pada tahun 2020. Secara akumulatif, jumlah Dana Abadi yang dikelola LPDP per 31 Desember 2020 adalah Rp70,107 Triliun. DPPN ini dikelola dengan diinvestasikan pada berbagai instrumen investasi berisiko rendah dan menengah seperti deposito, obligasi SBN, dan obligasi BUMN. Hasil pengelolaan DPPN diakui sebagai Pendapatan Negara Bukan Pajak (PNBP). Pada tahun 2020, realisasi PNBP mencapai Rp3,909 Triliun. Realisasi ini tercapai 104,73% dari target PNBP tahun 2020, ini merupakan wujud kinerja dan komitmen LPDP dalam meningkatkan imbal hasil pengelolaan Dana Abadi yang diamanahkan kepada LPDP.

Pada tahun 2020 di tengah adanya pandemi secara global, layanan beasiswa sebagai salah satu komitmen pemerintah untuk menciptakan sumber daya manusia Indonesia yang unggul tetap dilaksanakan secara terbatas. LPDP melakukan seleksi dan rekrutmen beasiswa dengan beradaptasi melalui penyederhanaan proses bisnis seleksi. Jumlah penerima beasiswa yang dinyatakan lolos seleksi pada tahun

Apart from strengthening regulations, LPDP also strengthens operational technical aspects. LPDP is committed to adapting sustainably to technological disruptions and public perceptions of service users, the majority of whom are millennials, by modernizing our service offices. LPDP moved offices in March 2019, from the office at the Ali Wardhana Building to the Danadyaksa Building in the Cikini area, Central Jakarta. The new LPDP office is designed according to the open office concept, which fully supports the collaboration and synergy process, and gives a positive impression that the LPDP organization is an open, transparent, and trustworthy organization in managing the Education Endowment Fund.

With the strengthening of regulations and office modernization, our service performance also improved in 2020. Accumulatively, the amount of the Endowment Fund managed by LPDP as of December 31, 2020 is IDR 70,107 Trillion. The DPPN is managed by investing in various low and medium risk investment instruments such as time deposits, government bonds, and state-owned enterprises bonds. The results of DPPN management are recognized as Non-Tax State Revenue (PNBP). In 2020, the realization of PNBP reached IDR 3.909 trillion. This realization was achieved by 104.73% of the PNBP target in 2020. This is a form of LPDP's performance and commitment in increasing the yield on the management of the Endowment Fund which is mandated to LPDP.

In 2020, in the midst of a global pandemic, scholarship services as one of the government's commitments to create superior Indonesian human resources continued to be implemented in a limited manner. LPDP conducts selection and recruitment of scholarships by adapting simplification in the selection business process. The number of scholarship recipients who have passed the selection in 2020 is 280 people. LPDP also funded

2020 sejumlah 280 orang. LPDP juga mendanai Program Kampus Mengajar yang diinisiasi oleh Kementerian Pendidikan dan Kebudayaan dengan jumlah penerima beasiswa sebesar 2.389 orang. Kolaborasi ini akan menjadi dilaksanakan dalam rangka memperluas manfaat pengelolaan dana abadi sehingga dapat diakses secara merata. Selain itu, Mahasiswa On Going yang sedang menjalankan studi di dalam dan luar negeri dalam pembiayaan beasiswa dari LPDP per 31 Desember 2020 sejumlah 7.988 orang.

Adapun jumlah alumni LPDP per 31 Desember 2020 adalah 12.597 orang. Alumni LPDP saat ini telah tersebar pada berbagai institusi publik dan privat, berkontribusi pada negeri dalam bidang tugas dan keahliannya masing-masing. Alumni LPDP melalui organisasi Mata Garuda secara aktif mendekati masyarakat dan menyelenggarakan kegiatan yang bermanfaat bagi lingkungan sekitarnya baik di level daerah maupun secara nasional.

Dari sisi Layanan Pendanaan Riset, LPDP telah menandatangani pendanaan untuk 60 judul riset baru dan 18 kontrak lanjutan. Riset yang dibiayai LPDP adalah riset yang bersifat kompetisi, mandatori, invitasi, dan kolaborasi internasional. Inovasi penelitian merupakan prasyarat suatu negara berkembang menjadi negara maju, dan LPDP berkomitmen ikut mewujudkan visi tersebut dengan pendanaan riset berkelanjutan.

Sumber daya manusia adalah faktor penting dalam rangka menjawab tantangan Indonesia yang ada saat ini dan di masa yang akan datang. Dunia terus berubah sehingga menciptakan generasi masa depan bangsa yang memiliki pengetahuan global dan kemampuan untuk beradaptasi menjadi hal yang penting untuk dilakukan. Dalam hal ini, LPDP sebagai salah satu organisasi sektor publik yang berupaya melaksanakan tujuan tersebut dengan terus memberikan

the Teaching Campus Program initiated by the Ministry of Education and Culture with a total of 2,389 scholarship recipients. This collaboration will be implemented in order to expand the benefits of endowment management so that it can be accessed equitably. In addition, on-going students who are currently studying at home and overseas under scholarship funding from LPDP as of December 31, 2020, totaled 7,988 people.

The number of LPDP alumni as of December 31, 2020 is 12,597 people. LPDP alumni are now scattered in various public and private institutions, contributing to the country in their respective fields of duty and expertise. LPDP alumni through the Mata Garuda organization actively approach the community and organize activities that are beneficial to the surrounding environment, both at the regional and national level.

In terms of Research Funding Services, LPDP has signed funding for 60 new research titles and 18 follow-up contracts. Research funded by LPDP is research that is competitive, mandatory, inviting, and international collaboration. Research innovation is a prerequisite for a developing nation to become a developed country, and LPDP is committed to realizing this vision through sustainable research funding.

Human resources are an important factor in responding to Indonesia's current and future challenges. The world continues to change so that it is important to create future generations of nations who have global knowledge and the ability to adapt. In this case, LPDP is one of the public sector organizations that seeks to implement these goals by continuing to provide support for the development of superior Indonesian human resources. LPDP can carry out its vision optimally with the support and synergy of various

Selanjutnya, seekor ikan salmon akan kembali ke perairan air tawar untuk berkembang biak. Seekor ikan salmon harus melawan arus saat proses migrasi tersebut. Hal ini menggambarkan LPDP yang senantiasa membantu dan mengayomi setiap penerima beasiswa untuk meraih mimpi dalam berbagai tantangan, termasuk pada masa pandemi.

Next, a salmon will return to freshwater waters to breed. A salmon must go against the stream during migration process. This illustrates that LPDP always helps and protects every scholarship recipient to achieve their dreams in various challenges, including during the pandemic.

Tata Kelola
Governance**1. Keterbukaan Informasi Publik**

Transparansi informasi adalah asas utama bagi instansi sektor publik yang bersinggungan langsung dengan pelaksanaan layanan kepada masyarakat luas. LPDP merupakan salah satu diantara instansi tersebut. LPDP melaksanakan pelayanan informasi publik berdasarkan Undang Undang Nomor 14 tahun 2008 tentang Keterbukaan Informasi Publik secara penuh dan konsekuen, sebagai bentuk komitmen LPDP terhadap persebaran informasi yang jelas dan merata kepada seluruh lapisan masyarakat. Sasaran utama informasi ini adalah para calon pendaftar beasiswa dan penerima bantuan dana riset LPDP.

Keterbukaan informasi LPDP diantaranya dilaksanakan secara langsung melalui kegiatan sosialisasi secara masif pada berbagai instansi pemerintah dan perguruan tinggi di seluruh Indonesia. Selain instansi dan perguruan tinggi yang memiliki potensi terbesar calon penerima beasiswa dan penerima dana riset, LPDP juga memberikan penyebaran informasi pada berbagai institusi non profit yang ikut serta dalam upaya meningkatkan akses pendidikan tinggi di Indonesia, misalnya melalui kegiatan atau pameran pendidikan. Target utama sosialisasi ini adalah daerah-daerah yang belum terjangkau informasi melalui media elektronik. Dengan sosialisasi secara masif dan menyeluruh di seluruh Indonesia, diharapkan jumlah persebaran pendaftar menjadi lebih merata sehingga seluruh masyarakat Indonesia dapat ikut menikmati akses terhadap pendidikan tinggi yang diberikan oleh LPDP.

Secara umum sampai 31 Desember 2020, LPDP telah melaksanakan 107 kegiatan sosialisasi pada berbagai kota di Indonesia (27 sosialisasi) serta pada berbagai platform daring (80 sosialisasi virtual). Selama jangka waktu tersebut, LPDP

1. Public Information Disclosure

Transparency of information is the main principle for public sector agencies, whose implementation of services are in direct contact with the wider community. LPDP is one of these institutions. LPDP carries out public information services based on Law Number 14 of 2008 concerning Public Information Disclosure in full and consequently, as a form of LPDP's commitment to clear and equitable distribution of information to all levels of society. The main targets of this information are prospective scholarship applicants and recipients of LPDP research grants.

LPDP's information disclosure is carried out directly through massive socialization activities in various government agencies and universities throughout Indonesia. In addition to institutions and universities that have the greatest potential for prospective scholarship recipients and recipients of research funds, LPDP also provides information dissemination to various non-profit institutions that participate in efforts to increase access to higher education in Indonesia, for example through educational activities or exhibitions. The main target of this socialization is areas that have not been reached by information through electronic media. With massive and comprehensive socialization throughout Indonesia, it is hoped that the number of registrants will be more evenly distributed so that all Indonesian people can gain access to higher education provided by LPDP.

In general, as of December 31, 2020, LPDP has carried out 107 outreach activities in various cities in Indonesia (27 outreach) and on various online platforms (80 virtual outreach). During this period, LPDP focused on

berfokus untuk melaksanakan sosialisasi jarak jauh dengan menggunakan *video conference* dan/atau webinar karena adanya kebijakan *Social Distancing* yang ditetapkan oleh pemerintah, dengan adanya pemberlakuan larangan untuk pengumpulan masyarakat dalam jumlah besar.

Selain itu, LPDP juga mengoptimalkan persebaran informasi melalui *social media* diantaranya Instagram, Facebook, dan LinkedIn. Persebaran informasi ini dinilai lebih efektif pada masa pandemi COVID-19 dibandingkan dengan sosialisasi secara daring. Program keberangkatan pun dilaksanakan secara daring untuk tetap

In addition, LPDP also optimizes the distribution of information through social media including Instagram, Facebook, and LinkedIn.
