I. Tata Kelola Governance

01. Keterbukaan Informasi Publik

Transparansi informasi adalah asas utama bagi instansi sektor publik yang bersinggungan langsung dengan pelaksanaan layanan kepada masyarakat luas. LPDP merupakan salah satu di antara instansi tersebut. LPDP melaksanakan pelayanan informasi publik berdasarkan Undang-Undang Nomor 14 tahun 2008 tentang Keterbukaan Informasi Publik secara penuh dan konsekuen, sebagai bentuk komitmen LPDP terhadap persebaran informasi yang jelas dan merata kepada seluruh lapisan masyarakat. Sasaran utama informasi ini adalah para calon pendaftar beasiswa dan penerima bantuan dana riset LPDP.

Keterbukaan informasi LPDP diantaranya dilaksanakan secara langsung melalui kegiatan sosialisasi secara masif pada berbagai instansi pemerintah dan perguruan tinggi di seluruh Indonesia. Selain instansi dan perguruan tinggi yang memiliki potensi terbesar calon penerima beasiswa dan penerima dana riset, LPDP juga memberikan penyebaran informasi pada berbagai institusi non-profit yang ikut serta dalam upaya meningkatkan akses pendidikan tinggi di Indonesia, misalnya melalui kegiatan atau pameran pendidikan. Target utama sosialisasi ini adalah daerah-daerah yang belum terjangkau informasi melalui media elektronik. Dengan sosialisasi secara masif dan menyeluruh di seluruh Indonesia, diharapkan jumlah persebaran pendaftar menjadi lebih merata sehingga seluruh masyarakat Indonesia dapat ikut menikmati akses terhadap pendidikan tinggi yang diberikan oleh LPDP.

Secara umum sampai 31 Desember 2021, LPDP telah melaksanakan 171 kegiatan sosialisasi yang didominasi dengan pelaksanaan secara virtual maupun hybrid. Selama jangka waktu tersebut, LPDP berfokus untuk melaksanakan sosialisasi jarak jauh dengan menggunakan *video conference* dan/atau webinar karena adanya kebijakan *social distancing* yang ditetapkan oleh pemerintah, dengan adanya pemberlakuan larangan untuk pengumpulan masyarakat dalam jumlah besar.

Selain itu, LPDP juga mengoptimalkan persebaran informasi melalui sosial media diantaranya Instagram, Facebook, dan LinkedIn. Persebaran informasi ini dinilai lebih efektif pada masa pandemi COVID-19 dibandingkan dengan sosialisasi secara daring. Program keberangkatan pun dilaksanakan secara daring untuk tetap menjalankan proses bisnis beasiswa yang tengah berjalan.

01. Public Information Disclosure

Transparency of information is the main principle for public sector agencies that are in direct contact with the implementation of services to the wider community. LPDP is one of these institutions. LPDP carries out public information services based on Law Number 14 of 2008 concerning Public Information Disclosure in full and consequently, as a form of LPDP's commitment to clear and equitable distribution of information to all levels of society. The main targets of this information are prospective scholarship applicants and awardees of LPDP research funds.

LPDP's information disclosure is carried out directly through massive socialisation activities in various government agencies and universities throughout Indonesia. In addition to institutions and universities which have the greatest potential for prospective scholarship awardees and awardees of research funds, LPDP also provides information dissemination to various non-profit institutions that participate in the efforts to increase access to higher education in Indonesia, for example through educational activities or exhibitions. The main target of this socialisation is areas that have not been reached by information through electronic media. With massive and comprehensive socialisation throughout Indonesia, it is expected that the number of applicants will be more evenly distributed so that all Indonesian people can enjoy access to higher education provided by LPDP.

In general, until December 31, 2021, LPDP has carried out 166 socialisation activities at various locations in Indonesia (5 socialisation) as well as on various online platforms (161 virtual socialisation). During this time period, LPDP focused on carrying out remote socialisation using video conferencing and/or webinars due to the Social Distancing policy determined by the government, with the imposition of a ban on gathering large numbers of people.

In addition, LPDP also optimises the distribution of information through social media including Instagram, Facebook, and LinkedIn. This distribution of information is considered more effective during the COVID-19 pandemic compared to online socialisation. The departure program is also carried out online to keep the ongoing scholarship business process.
